## LOOSE TEA

Bradley's premium loose tea is exclusively developed for the out-of-home market, setting it apart from teas intended for home consumption. Each range features its own attractively designed and sustainable packaging, creating a unique and eye-catching presentation. The recognisable numbers on the packaging correspond to specific flavours. With its premium quality, Bradley's loose tea offers a distinctive moment of indulgence. It is composed of carefully selected large tea leaves, enriched with real pieces of fruit, fragrant flowers, and aromatic herbs. These high-quality ingredients together deliver a rich, full flavour that comes to life with every sip. Thanks to the use of loose tea, the natural aromas are given space to fully unfold. The result? A more intense fragrance, deeper flavour layers, and a refined experience your guests will appreciate and remember.
